Making DKA important for ED nurses
I really cant breathe - Pearls of Respiratory Assessment
Bleeding in Early Pregnancy - Identifying the sick patients
Mental Health Assessment for ED Nurses
Snakebite and other creepies that can kill you
Avoiding the Pitfalls of Septic Shock
Controversies in Emergency Nursing
Hour of Power - 4 mini topics of fun filled education
Abdominal Pain - Identifying the life threatening
Abdominal Pain Part 2
Procedural sedation - The nuts and bolts
Understanding Nurse Initiated X-ray
Marine Envenomations - Don't pull the barb out!
ENT emergencies
10 Radiology Rules
A-Z of Emergency Care
Emergency: 10 rules you should know
Real Cases from the ED: A dozen things you need to know
Administrative Emergencies: A View from Managements Perspective
Quality in Emergency - Don't roll you eyes
Infection control for ED nurses: More powerful than a hand hygiene audit
Pandemics - Is the sky really falling?
Arrhythmias that you thought that you knew

Want to buy a vowel? - Street Drugs - more than just E's
Chest Xray Interpretation - Simply
IV Access - From Simple to Complex
The DNW patient: Should we worry
Back Pain Killers - assessment and management of LBP
All stressed out - Avoiding Burnout in the ED
Avoiding unnecessary X-rays
Challenging cases in paediatric emergency care
Classic Paediatric Rashes
Common presentations in the first 28 days of life
Cranial Nerves - When is it an emergency
Expedition and Wilderness Emergencies
From X-rays to Anti emetics - Difficult decisions in the pregnant patient
Half baked emergencies - pregnancy emergencies in the 2nd and 3rd trimester
HIV and the Emergency Department
How do I get that out of here? - FB removal in the ED
Make yourself a better nurse - Improving bedside clinical and communication skills
To tell the tooth - Dental and Oral Emergencies
The Thunderclap Headache - Subarachnoid and Beyond
Toys and Tools - New devices in the ED
My nose wont stop bleeding - Epistaxis in the ED
To treat or not - Hypertension and other silliness
Tropical Diseases we should consider in ED
Electrolyte Emergencies - More than Scary Kalaemia
Occupational Violence: Protect yourself
Bloodborne infections in the ED
Christmas injuries - not all jingle bells
Best of the last year- a review of change in ED
Cefcureeverything - A guide to antibiotics in the ED
Art Class - Respiratory System
Art Class - Cardiac System

Trauma Topics

Major Trauma Management - Key Concepts
Airway, Breathing, Camera - Avoiding the Pitfalls of Trauma
Everything I know about Trauma Teams....
Hypovolaemic Shock - It is not a short pause before death
Mechanism of Injury - Do ED's really need to know?
Let's crack a chest together - Chest Injuries
Tight Brains - Understanding Neuro Trauma
Elderly Trauma - They are not just big kids
Not Drowning, Waving - Saving lives out of the water
Near Hanging - Desperate Measures
'That's got to hurt' - A guide to Facial Trauma
Do you smell something burning - Dealing with Adult Burns
Creating Calm from Chaos - Disaster Management
Abdominal Trauma- Avoiding the pitfalls
Crush Injuries
Spinal Cord Injury
Hand Injuries
Lower limb injuries and their assessment
Upper limb injuries and their assessment
Holy Cow - Case studies from the Resus Room
Pelvic Fractures and their ED treatment
Myths in ED care
An Hour of Power Arterial Lines / Pacing
Assessing the concussion head injury in ED

Critical Care for Emergency Nurses

Emergency Airway Management for nurses
Intubation for Nurses - Essentials of care
Ventilation strategies for ED patients
'We are just going to give your Dad a Trachy' -The Difficult Airway
Managing Acute Pulmonary Oedema
Beyond Intubation - Understanding Ventilation
Anaphylaxis anxiety - Calming the nerves
Intrahospital Transfers
State of Shock - Knowing the Differences
Resuscitation of the Hypotensive Patient
Tracheostomy Emergencies

Resuscitation of the obese patient
Best Practice in Sepsis Management
ED Critical Care - Pearls from ICU
Diving Injuries - The power of bubbles
Critical Electrolyte Imbalances
Seizures in the ED
Tough decisions - Ethics in the Emergency world
Myocardial Infraction: recognition and management
Upper and Lower GI Bleeds
Hi Flow Oxygenation - A lot of hot air??
When Animals Attack - A guide to animal related injuries

Emergency Paediatric Topics

Recognising the Seriously Sick Child
Paediatric Resuscitation - Embracing the Fear
Managing a Paediatric Cardiac Arrest
Recognising Child Abuse - Red Flags for Nurses
Paediatric Gastro - The Kid that gave me the S...ts
Ouch that hurts - Paediatric Analgesia Options
I can't breathe - An approach to paediatric respiratory distress
Kids that Cook - Fever in the ED
Burns, Scalds and Emergent Care
Paediatric Red Flags
Asthma in Kids: Complex care in ED
Avoiding Paediatric Disasters at Triage
Challenging Paediatric Clinical Cases
Classic Paediatric Rashes
Common presentations in the first 28 days of life
Neonatal Emergencies
Avoiding Paediatric Triage Disasters

Emergency Education Topics

Motivating Clinical Staff: Leading By Example
Fabulous and Fantastic Bedside Teaching
Deliver that killer topic - Avoiding death by powerpoint
Errors in Healthcare How education can help
Providing Feedback - Understanding its role in performance improvement
Out with the old in with the new
Social media and the impact on Emergency Nursing
Debriefing in Simulation
Common problems with running a simulation and how to avoid them
The 'p' value said what!!!: Research concepts put simply

Hour of Power

Four 15 minute talks or two half hour talks
IV therapy
Arterial Blood Gas
Blood Gas Analysis - Still Causing Problems
Blood test results
Misadventure in Patient Identification
Community Acquired Pneumonia
Chronic Obstructive Pulmonary Disease
Asthma
Antibiotics -Are they an emergency drug
Pulmonary Emboli
Sedation and Analgesia
Recreational Drugs - Know your party drugs
The ABC of Blockers
Types of Ventilation
High Flow Oxygenation
Abdominal Aorta Aneurysm
Anticoagulant overdoses
Transthoracic Pacing
Artlines Management
Intraosseous access
Chest Drains
Domestic Violence
Eye Injury
Hot and Cold - Hypothermia/Hyperthermia treatment

Seizures

Violence in ED's

Agitation Management

MODS - Not the 1960's sub culture

Intramuscular injection best practices: What does the literature say?

Capnography -Saves lives every time
